MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Proposed Letter to Dr. Kissinger  
on DCID 1/2

1. The attached is intended to move us a bit closer to a satisfactory feedback situation with the most important consumers of intelligence. As you know, we are trying to devise ways of getting these consumers to tell us what they think about the product and also to let us know what it is they are most interested in. This letter aims at the latter category and even if Dr. Kissinger is unable to give it much personal time, it should serve to get it into the senior NSC staff and thus elicit a response from that area.

2. This proposal has been discussed within the NSCIC Working Group and with Andy Marshall.
